

Everlast Metals | ROOFING PASSPORT

ROOFING PASSPORT

A quick-start guide to faster metal roofing estimates

USE THE PROJECT INFORMATION YOU ALREADY HAVE

Start with an address, a set of plans, or an existing XML measurement file. Roofing Passport helps you configure Everlast Metals panels and colors, then produces measurements and a panel cut list for quoting.

HOW TO USE ROOFING PASSPORT

1 CHOOSE AN INPUT Address, plans, or XML	2 CONFIGURE Select panels and colors	3 GENERATE Receive measurements and cut list	4 PREPARE THE QUOTE Review, price, and finalize
--	--	--	---

CHOOSE THE RIGHT PROJECT PATH

START WITH	PARTNER TOOL	WHAT TO DO	BEST FOR
Customer address	EagleView	Enter the address to obtain an aerial image and highly accurate roof measurements.	Existing homes and re-roof projects
Plans or drawings	Roofing WRX	Upload blueprints, drawings, or other roof measurements into the estimating workflow.	New construction and unbuilt projects
Existing XML file	Roofing WRX	Import a compatible file from EagleView, TopView, Hover, or another measurement platform.	Projects with measurement data already available

WHAT TO EXPECT

FAST START A preliminary estimate can be created in about 3 minutes—without drive time or climbing onto the roof.	USEFUL OUTPUT Roof measurements and an Everlast Metals panel cut list are generally available in approximately 24 hours.	FLEXIBLE USE Work from anywhere with internet access for new construction, re-roofing, renovation, residential, or commercial projects.
---	--	---

FEES

ADDRESS LOOKUP · EAGLEVIEW	PLANS / DRAWINGS · ROOFING WRX	XML UPLOAD · ROOFING WRX
Up to 2,000 sq. ft.: \$45 2,000–4,000 sq. ft.: \$45 Over 4,000 sq. ft.: \$45 Multi-family/commercial: \$120	Per structure: \$68	Compatible measurement file: \$12

Fees are payable by credit card and are based on the estimating method and project size.
